### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

The subject matter of the independent claim could either not be found or was not suggested in the prior art of record. The subject matter not found was for a method of determining intraperitoneal volume when peritoneal dialysis is being performed; and the steps include passing peritoneal solution adjacent a semi-permeable membrane that allows for measuring the concentration of an endogenous substance in the peritoneal solution in the peritoneal cavity, which ultimately allows for a less cumbersome and less costly procedure as pointed out in the remarks section page 5 dated 2/12/07 and the specification page 3, lines 9-11 (these remarks also giving criticality as well as show the added benefit for not adding an extra exogenous substance).

The independent claims also include other patentable subject matter in combination with the other elements or steps of the claim not mention in the above paragraph.

The examiner would also like to note that the examiner gave the previous examiner full faith and credit as to the previous field of search and best references that were found and cited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MATTHEW F. DESANTO whose telephone number is (571)272-4957. The examiner can normally be reached on Monday-Friday 9:30-6:00.
